

1. Title: Project Manager Intelligence Systems & Analytics (PM IS&A), the next iteration of Army Intelligence Data Platform (AIDP) Request for Information #4

2. RFI History:

RFI #1, Market Research, Notice ID: ACCAPG25P010860

RFI #2, Industry Day, Notice ID: ACCAPGAIDPCTE

RFI #3, Draft CfS and One-on-One Requests, Notice ID: ACCAPGAIDPRFI3

3. Problem Statement:

The fielded Army intelligence solution operates solely through an enterprise cloud-based system that allows users to perform Intelligence Warfighting Function (IWfF) tasks. The existing solution lacks a cohesive, integrated approach for operating at the Enterprise Cloud and the Tactical Edge (Denied, Degraded, Intermittent, and Limited network connectivity), across multiple security domains (Secret and Top Secret), with a common user interface, supported by seamless, lossless, near-real time data sharing. How does the Army fill these capability gaps to support the Army IWfF from an Enterprise Cloud to the Tactical Edge and provide military intelligence capabilities and information to Next Generation Command and Control (NGC2) and Army mission command systems.

4. DRAFT Call for Solution (CfS):

The Government is providing an updated DRAFT Call for Solution. This DRAFT CfS is intended to be used to review requirements and to give vendors time to work on a solution as the award is intended to be at an accelerated pace.

The updated DRAFT CfS is unclassified and can be found in the Attachments section. The document titled “Section 4_Desired Solution Objective” includes information relevant to the DRAFT CfS but is Controlled Unclassified Information (CUI).

The draft CfS has been updated to make the following changes:

- *Updated to say the Government intends to award an RFO 12 Commercial contract or Other Transactions (OT) for Prototype Project.*
- *Relative Importance of evaluation factors and Method of Evaluation were added to appropriate sections per DFARS 212.70.*
- *Provided details regarding the use of Enterprise Contracts (EC).*
- *Section 4 Desired Solution Objective was added to remove CUI information from the DRAFT CfS so the Government can post the DRAFT CfS directly. Industry may request the full Section 4 by following the instructions listed in this RFI.*
- *Provides details about the proposed solution as severable capabilities.*

- *Section 5 Call for Solutions Process was updated to add Price volume to White Papers step.*
- *References to “Cloud to Edge” and related descriptions are changed to “Cloud and Edge”. This is done to remove the assumption that a solution must start with the cloud and then scaled to the edge. Solutions may start with the edge and scale up to the cloud or may provide other innovative approaches in resolving the Government’s problem statement and objectives.*
- *Other changes as deemed necessary by the Government.*

Please Note: This is a DRAFT Call for Solution. This DRAFT Call for Solution is issued for informational and planning purposes only and is subject to change.

5. Section 4_Desired Solution Objective:

To request the attachment “Section 4: Desired Solution Objective”, please email the POCs below.

The request email MUST have the subject line of ““DRAFT Section 4 – [CAGE code]”

AIDP mailbox: usarmy.apg.cpe-isw.mbx.pm-isa-aidp-next@army.mil (Please provide CAGE code when corresponding)

Scott Butterfield: scott.d.butterfield2.civ@army.mil, Contracting Officer

Rachel Moresi: rachel.l.moresi.civ@army.mil, Contract Specialist

6. Additional information:

The Government is providing a DRAFT Product Demonstration Plan so vendors can review the format and areas of evaluation for Step 2, Product Demonstrations. Note: This PDP is issued for information purposes only and is subject to change.

The Government is providing a DRAFT GFI list so the vendors can see what will be provided for Product Demonstrations. The DRAFT GFI list can be found in the Attachments section.

Questions and feedback gathered from RFI #3 have been reviewed and answered. The spreadsheet, containing all questions and answers, has been added to the Attachments section.

7. Questions/Feedback:

All questions and/or feedback should be submitted to the following POCs:

AIDP mailbox: usarmy.apg.cpe-isw.mbx.pm-isa-aidp-next@army.mil (Please provide CAGE code when corresponding)

RFI #4 for AIDP– Draft CfS

Scott Butterfield: scott.d.butterfield2.civ@army.mil, Contracting Officer

Rachel Moresi: rachel.l.moresi.civ@army.mil, Contract Specialist

All questions and/or feedback for the DRAFT CFS should be provided no later than 15 JULY 2026 at 1700 EST using the attached spreadsheet (“AIDP - Questions and Feedback Submission Sheet”). Questions and/or feedback received after the due date may not be reviewed.

Title submission email with the subject line of, “Questions and/or Feedback Submission AIDP Draft CfS 2”.
